

TAKE YOUR POWER BACK! UNINTERRUPTED POWER SUPPLY

ABOUT US

As an industry pioneer, we specialize in dynamic partnerships with installers and wholesalers, delivering a diverse range of premium solar brands that embody cutting-edge solar solutions.

At Joule Energy Solutions, our spectrum of offerings empowers installers to craft bespoke solutions that precisely align with the unique requirements of their clients.

OUR MISSION

To ensure that our installers have easy access to affordable, clean energy solutions and leverage relationships, technology and systems to provide the best experience to their customers.

OUR VISION

To be South Africa's most trusted resource for renewable energy and enable Southern Africa's transition to green energy.

OUR GOALS

To support our clients with growing their businesses and offer households and businesses peace of mind knowing that they have consistent, quality power supply all year round.

RESEARCH AND DEVELOPMENT

Our team of engineers and technicians work tirelessly - testing products and collaborating with our suppliers to help develop products best suited for the South African market and climate.

We develop our own products based on years of experience in the Fibre, Telecommunications and Electrical Engineering industries but we also work with an array of brands to provide our customers with the best alternative energy solution for their needs.

OUR PRODUCTS

Our aim is to make installers more productive. We supply all the products you need to install most renewable energy projects. If we do not have it in stock, we will get it for you. We can even organise delivery straight to your site.
